

November 25, 2014

To whom it may concern:

Kevin Ransom and Preventive Maintenance effectively completed a commercial project for us which came with time and workspace limitations. Kevin and his colleagues were professional, courteous, and insightful throughout the project. In the planning stage, Kevin and his team identified potential obstacles with our project and were prepared to address them if needed. The level of accommodation they had for our impromptu modifications was appreciated and atypical.

The expertise that Kevin and his colleagues brought to our project, including: structural remodeling, framing, plumbing, master electrical, and finishing work, was valuable. Communication with Kevin and his team throughout the project was effortless and useful.

We will continue to use Kevin Ransom and Preventive Maintenance in the future and find him and his coworkers trustworthy and highly competent. We would, and do, recommend Kevin to business acquaintances.

Sincerely,

Tracy Scholl
